

Scene Indian Street Kitchen

Covid-19

A guide to our in-house changes

Protecting Our team

Our team both front of house and back of house are at the heart of everything we do

As part of our Covid prevention strategy we have implemented changes to our working practises to ensure those who make our restaurant special remain as safe as you.

Protecting You

Our customers are what truly make our restaurant special.

In line with leading recommendations we have implemented changes to our restaurant to protect you and ensure you can enjoy yourself without risks.

Our Changes

You

Face masks need to be worn by all guests and staff at all times unless seated at a table.

We encourage the use of contactless payment when visiting our restaurant

We have implemented a 6 person booking limit in line with government restrictions.

Our Team

Any team member displaying symptoms or having been in contact with those displaying symptoms will be required to isolate for the government recommended 14 day period.

We aim to minimise shift crossover and work in team bubbles.

We have provided our team with face coverings, hand sanitiser and other PPE required for their roles.

Our Restaurant

We have implemented a hand sanitiser policy with alcohol based hand gel available at all team stations and throughout the restaurant.

We have implemented further cleaning procedures throughout the restaurant and kitchens.

We have introduced screens throughout the restaurant to prevent cross contamination and protect you during your meal.

We have implemented a 1m+ social distancing rule for both our team and our customers.

We ask that you respect our staff and other customers
during this difficult time

We look forward to seeing you again soon and if there
are any issues or questions do not hesitate to contact us
